The National Arboretum. [Motion picture] U.S. Dept. of Agriculture, 1969. Released by National Audiovisual Center.

14 min sd. color 16 mm.

SUMMARY: Presents views of flowers at the National Arboretum during the four seasons of the year, together with scenes of scientists at work there. Includes a sequence taken in the Far East, showing a scientist of the U.S. Dept. of Agriculture as he collects plants for developing new ornaments for the United States

1. Washington, D.C. National Arboretum. 2. Plant introduction—United States. 3. Plants, Ornamental. I. United States. Dept. of Agriculture. II. National Audiovisual Center.

The Occlusal path record. [Motion picture] U.S. Veterans Administration, 1967. Released by National Medical Audiovisual Center and National Audiovisual Center.

15 min. sd. color. 16 mm. (Removable partial dentures—clasp type: clinical and laboratory procedures)

Also issued with magnetic sound in 8 mm. in cartridge; in super 8 mm. on reel and in cartridge.

CREDITS: Author, Franklin W. Smith.

SUMMARY: Discusses how the generated path or occlusal path records makes it possible to record jaw relations under actual mastication conditions, resulting in a harmonious occlusion. Presents the technical procedures incident to registering the occlusal path.

1. Partial dentures. 2. Occlusion (Dentistry) I. United States. Veterans Administration. II. National Medical Audiovisual Center. III. National Audiovisual Center. IV. Series: Removable partial dentures—clasp type: clinical and laboratory procedures. [Motion picture].

Pavlov: the conditioned reflex. [Motion picture] USSR Central Television, 1974. English version adapted by Harold Mantell. Released in the U.S. by Films for the Humanities, 1975.

25 min sd b&w 16 mm

Also issued as videocassette

English version of the Russian motion picture entitled Academician Pavlov.

CREDITS: Translator, Ellen Chances; narrator, Anthony Quayle.

SUMMARY: Depicts Ivan Pavlov in his Leningrad research center. Uses documentary footage to recreate the salivating dog experiment which led the physiologist to the concept of the conditioned reflex. Pavlov himself speaks about the need for objectivity in scientific experimentation and the application of conditioned reflex methods to the problems of neurology and psychiatry.

Radiation protection during medical X-ray examinations. Part 1: Principles of X-ray protection. [Slide set] U.S. Bureau of Radiological Health, 1974. Released by National Audiovisual Center.

49 slides. color. 2 x 2 in. and phonotape: 1 reel (for manual or automatic projectors), 16 min.

Also issued with phonotape in cassette.

With guide.

SUMMARY: Discusses the biological importance of minimizing needless X-ray exposure, and outlines four main areas in which the medical X-ray technologist can exert maximal influence in dose reduction—techniques, collimation, gonadal shielding, and film processing.

1. Radiography, Medical. 2. Radiation—Safety measures. I. United States. Bureau of Radiological Health. II. National Audiovisual Center. III. Series: Principles of X-ray protection. [Slide set].

Radiation protection during medical X-ray examinations. Part 2: Checking the accuracy of the light beam in a collimator. [Slide set] U.S. Bureau of Radiological Health, 1974. Released by National Audiovisual Center.

30 slides. color. 2 x 2 in. and phonotape: 1 reel (for manual or automatic projectors), 12 min.

Also issued with phonotape in cassette.

With guide.

SUMMARY: Provides the medical X-ray technologist with a simple method for checking the alignment and adjustment of the beam light in a variable rectangular collimator, using only a sheet of X-ray film, a ruler, and a few paper clips.

1. Radiography, Medical. 2. Radiation—Safety measures. I. United States. Bureau of Radiological Health. II. National Audiovisual Center. III. Title: Checking the accuracy of the light beam in a collimator. [Slide set]

Secretarial attitudes. [Filmstrip] McGraw-Hill Book Co., 1954. Made by Focus Features.

62 fr. b&w. 35 mm. and phonodisc. Lacking in LC (Secretarial training series, no. 3)

Correlated with Applied secretarial practice, by Gregg, Fries, and Rowe, with College secretarial procedures, by Place and Hicks, and with The secretary at work, by Strony and Greenaway

SUMMARY: Uses photographs to show that the success of a stenographic worker depends upon her work habits. Explains how training as a receptionist helps in the performance of secretarial duties. Demonstrates how to answer the telephone correctly and how to greet callers. Shows that a secretarial worker must be able to work under pressure and meet deadlines. Stresses the importance of following instructions intelligently.

The Selection and effects of infrared operating parameters. [Slide set] Beckman Instruments, 1973

23 slides color 2 x 2 in. and phonotape 1 cassette (for manual or automatic projectors) 20 min. (New dimension series)

With script.

CREDITS: Advisers, K. E. Stine, W. J. Hayman.

SUMMARY: Discusses the adjustment of the gain, period, slit-width, and scanning speed controls on infrared instruments and the changes which result in the recorded spectrum. Presents many examples showing effects of tracking error on recorded data. Gives procedures for properly setting up an infrared spectrophotometer.

Steatorrhea in the blind loop syndrome. [Slide set] American Gastroenterological Association, 1969. Released by National Audiovisual Center.

22 slides. color 2 x 2 in. and phonotape 1 reel (5 in.), 3 3/4 ips., 21 min. (Fat absorption in health and disease)

SUMMARY: Deals with the blind loop syndrome, emphasizing intestinal stasis as a condition for bacterial overgrowth in the proximal gut. Considers mechanisms by which these bacteria could produce steatorrhea. Concludes that fat malabsorption occurs because of deficiency of conjugated bile salts rather than toxicity of free bile acids. Gives a basis for rational management and definitive therapy.

Surgical rehabilitation of the atrophied mandible in preparation for denture prosthesis (according to Obwegeser). [Motion picture] Eaton Laboratories, 1968.

25 min. sd. color. 16 mm.

CREDITS: Author, Benjamin S. Recant.

SUMMARY: Deals with problems in the construction of a satisfactory full denture prosthesis for a patient with atrophic mandible. Presents a technique developed by Professor Hugo Obwegeser of the University of Zurich, which makes the patient's remaining mandibular bone available as a denture base.

1. Mandible—Surgery. 2. Complete dentures. I. Eaton Laboratories

Survival in the Sahel. [Motion picture] U.S. Agency for International Development, Office of Public Affairs, 1975. Released by National Audiovisual Center.

15 min. sd. color 16 mm

SUMMARY: Shows the effects of the drought on humans, animals, and environment in Central and West Africa and Ethiopia. Stresses the massive relief effort mounted by the United States Government, other nations and private agencies, and individuals. Emphasizes the role of the U.S. Agency for International Development in helping to increase food production, and to improve nutrition, health, transportation, reforestation, and water supply.
